

Sprint Community Transport

Beta Release Presentation

Who are we?

Beth Cartwright

James Rennie

Sajjad Alkhamis

Amy Jose

Eva Anderson

Ethan Wang

An illustration of a yellow school bus driving on a grey road with white dashed lines. A man and a woman are visible in the bus windows, waving. A young man is leaning out of the back of the bus, also waving. On the left side of the road, a young girl with a backpack is walking. On the right side, a young man with a backpack is standing and waving. The background is a light blue sky with two white clouds.

THE
SPRINT

Sprint Community Transport

Sprint are a local charity
that provide bus
transportation for
vulnerable populations

Our project is designing &
building a management
system for their team

1	Thursday week 1						date	
2	NAME	ADDRESS	DESTINATION	TIME	PERM?	SPECIAL INSTRUCTIONS	BOOKINGS WE COULDN'T DO***	
3	BUS CHECK			8AM				
4	SLA	123 LANE ROAD		8.20		FOLLOW PRINTOUT		
5		123 LANE ROAD						
6	CLA	123 LANE ROAD	SAINSBURYS	10.30	PERM	TROLLEY	SUMS IF CANCELLATION	
7	DER	123 LANE ROAD			PERM			
8	MCN	123 LANE ROAD			PERM	TROLLEY		
9	PAY	123 LANE ROAD	FULL****		PERM	TROLLEY		
10	JOS	123 LANE ROAD			PERM	TROLLEY		
11	STE	123 LANE ROAD			PERM	TROLLEY		
12	NOR	123 LANE ROAD			PERM	TROLLEY		
13	WED	123 LANE ROAD			PERM	TROLLEY		
14				11.10				
15				11.30				
16				11.45				
17				12.00				
18		TIME TO GET THERE						
19	WED	SAINSBURYS	123 LANE ROAD	12.15	PERM	TROLLEY		
20	MCN		123 LANE ROAD		PERM	TROLLEY		
21	STE		123 LANE ROAD		PERM	TROLLEY		
22	PAY		123 LANE ROAD		PERM	TROLLEY		
23	JOS		123 LANE ROAD		PERM	TROLLEY		
24	NOR		123 LANE ROAD		PERM	TROLLEY		
25	DER		123 LANE ROAD		PERM	TROLLEY		
26	CLA		123 LANE ROAD		PERM	TROLLEY		
27				12.00				
28								

Currently the schedule is managed through a disorganised excel sheet, where repeated journeys are copied & pasted from week to week.

Current System

(data retracted for GDPR reasons)

User Stories

Drivers

Know what routes & maintenance requirements are upcoming

Clients

Booking should be as easy as possible & my booking should never get lost

Bookings

Streamlined workflow that reduces the amount of human interaction required

Journeys

Journeys should be visible and easy to locate. Easy to input new routes & also create repeatable events

Key Product Principles

As our application will be used by a non-technical audience, the following principles are at the forefront of our development

Usability

Easy to use

Easy to learn

Simplicity

Time saving

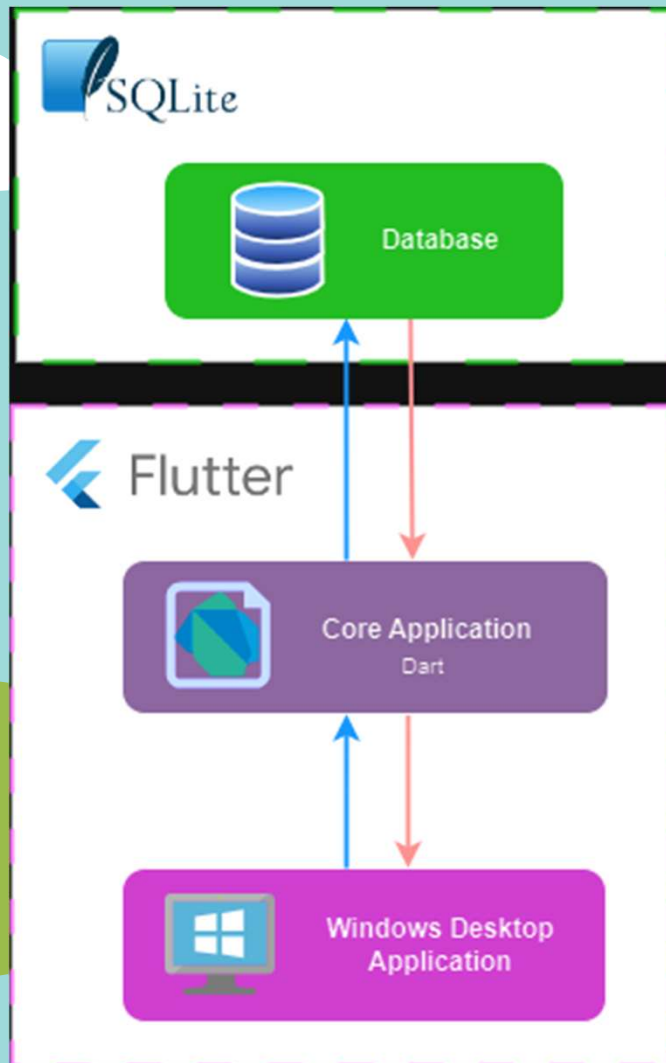

Reducing workload

Easy to teach

'Plug & Play'

No auxiliary systems

Ready to use

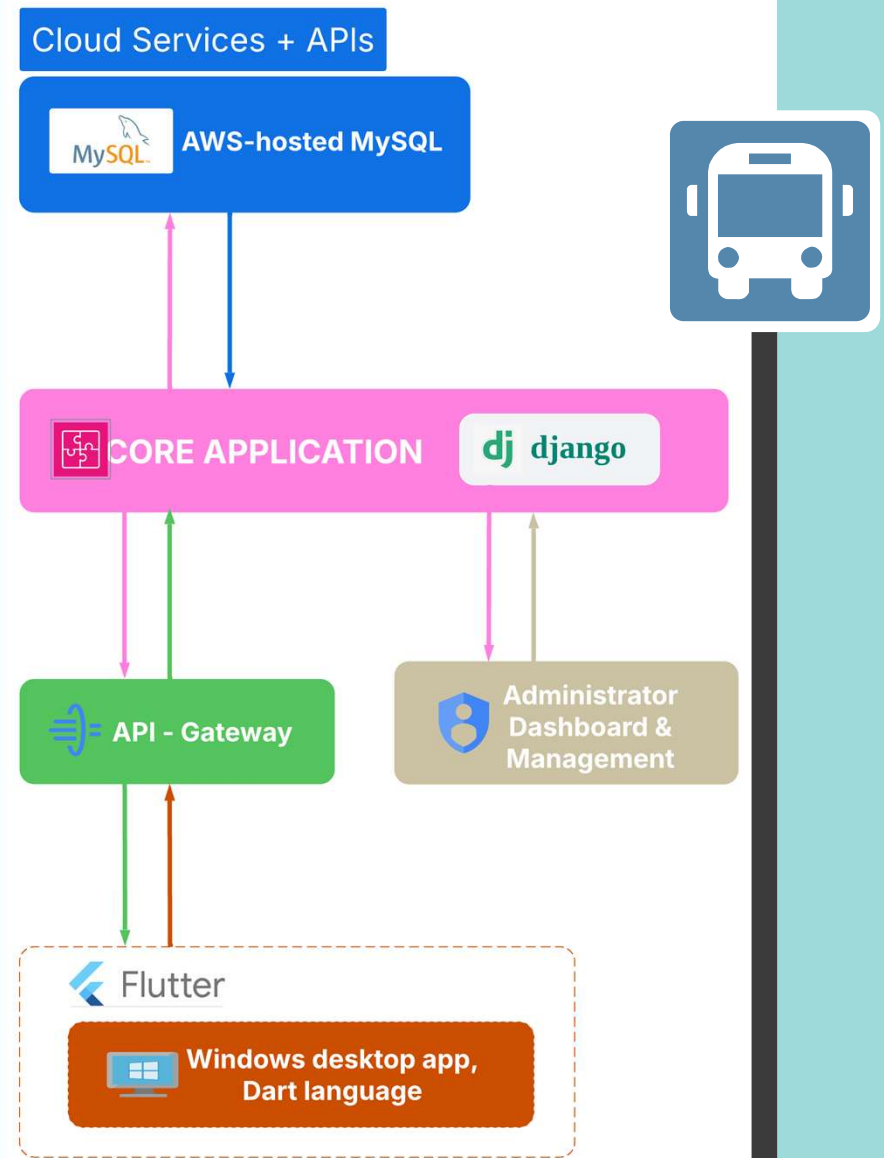

Tech Architecture

Previously we were operating
with a locally hosted SQLite
Database

Tech Architecture

After client feedback, we have now moved to an AWS hosted MySQL database, adding a django backend for integration purposes

Working Methodology

Agile Meetings

Moving towards
weekly stand-ups

Seperation of Concerns

Working across
multiple features

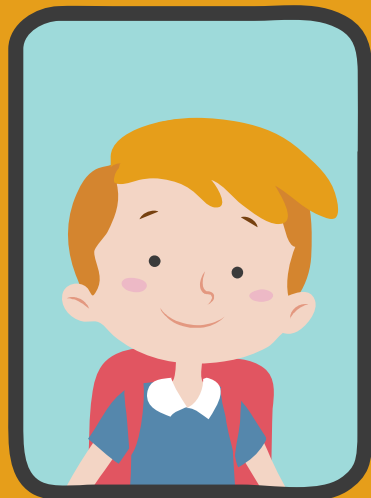

Issue Creation

Driving change using
our GitHub Issues

Communication

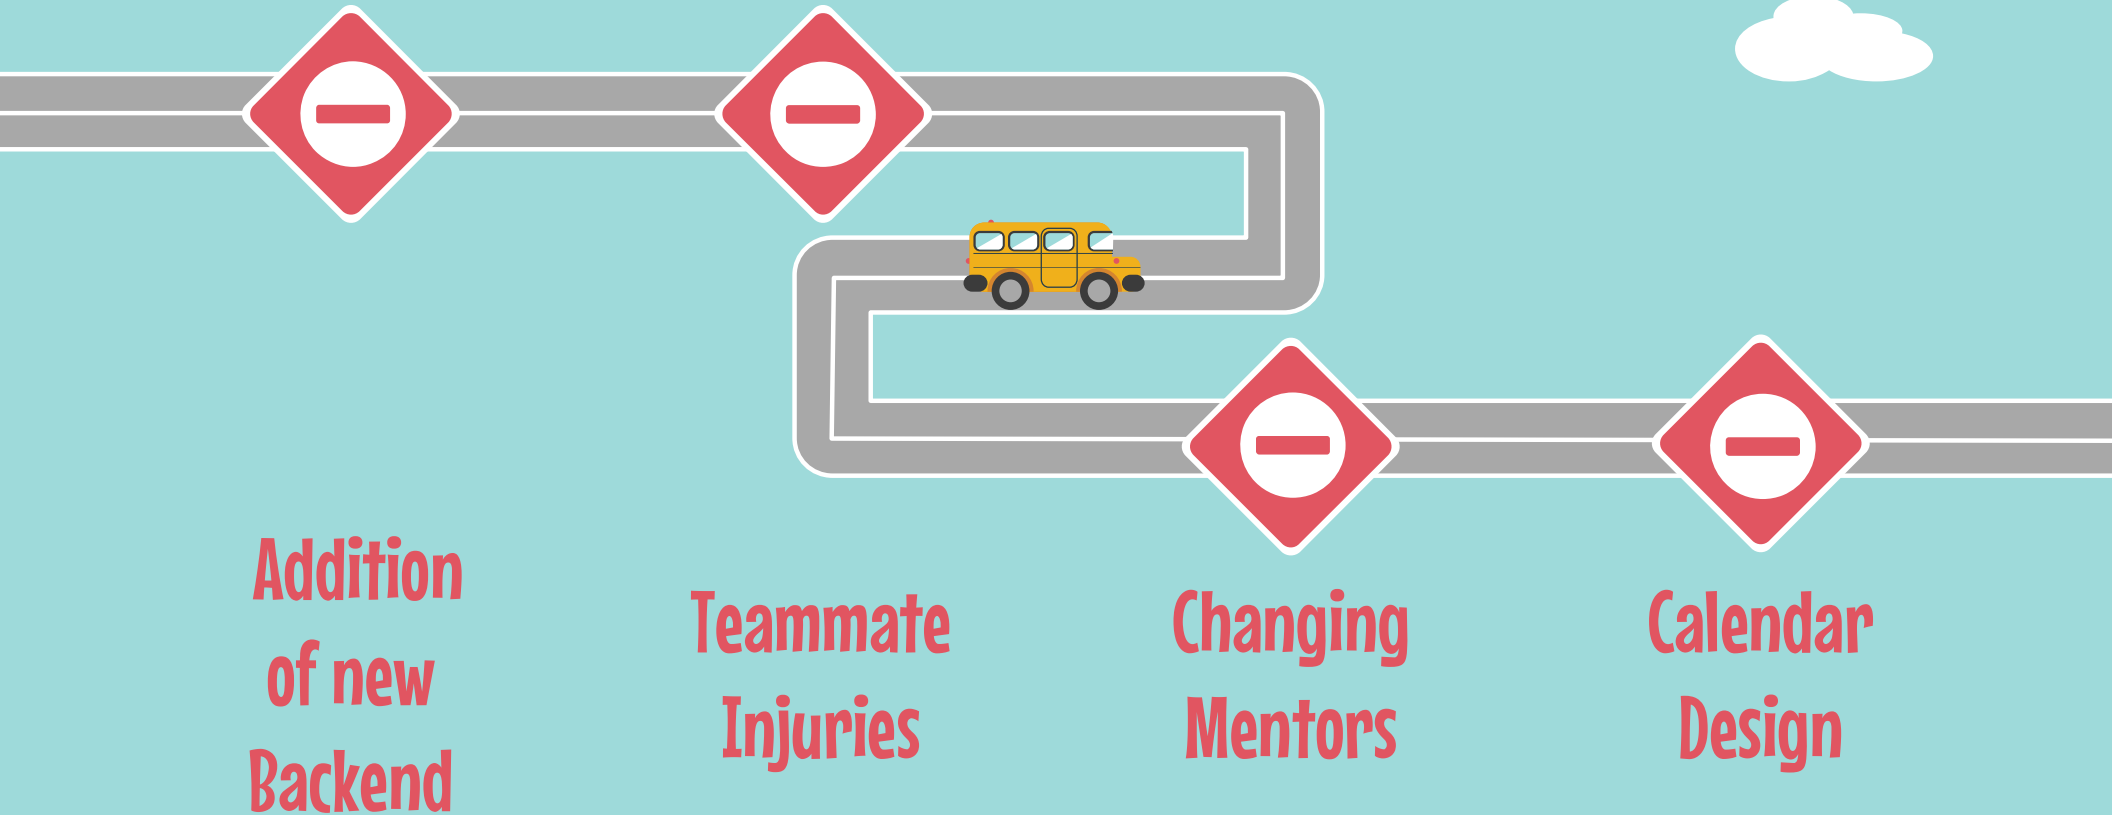

Use of comments in
issues/PRs

Demonstration

Challenges Encountered

MVP Feedback

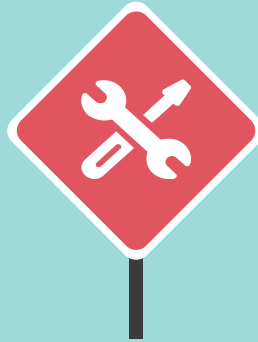

Multiple Users

Multiple people make use of the system rather than the singular person previously understood

**AWS Hosted
Databases**

Maintenance Page

Information required on what upcoming/previous maintenance requirements are for all vehicles

**Creation of new
Maintenance Page**

Calendar Design

Design of the Calendar/Schedule page should be improved to align more with requirements

**New Design &
Implementation**

Beta Client Feedback

Usability

Client was happy with the current design and functionality, remarking that it looks very usable

Maintenance

Liked the new maintenance page – few minor tweaks required to make this perfect

Schedule Print-outs

Daily schedules are currently printed out for each driver. This functionality needs to be implemented

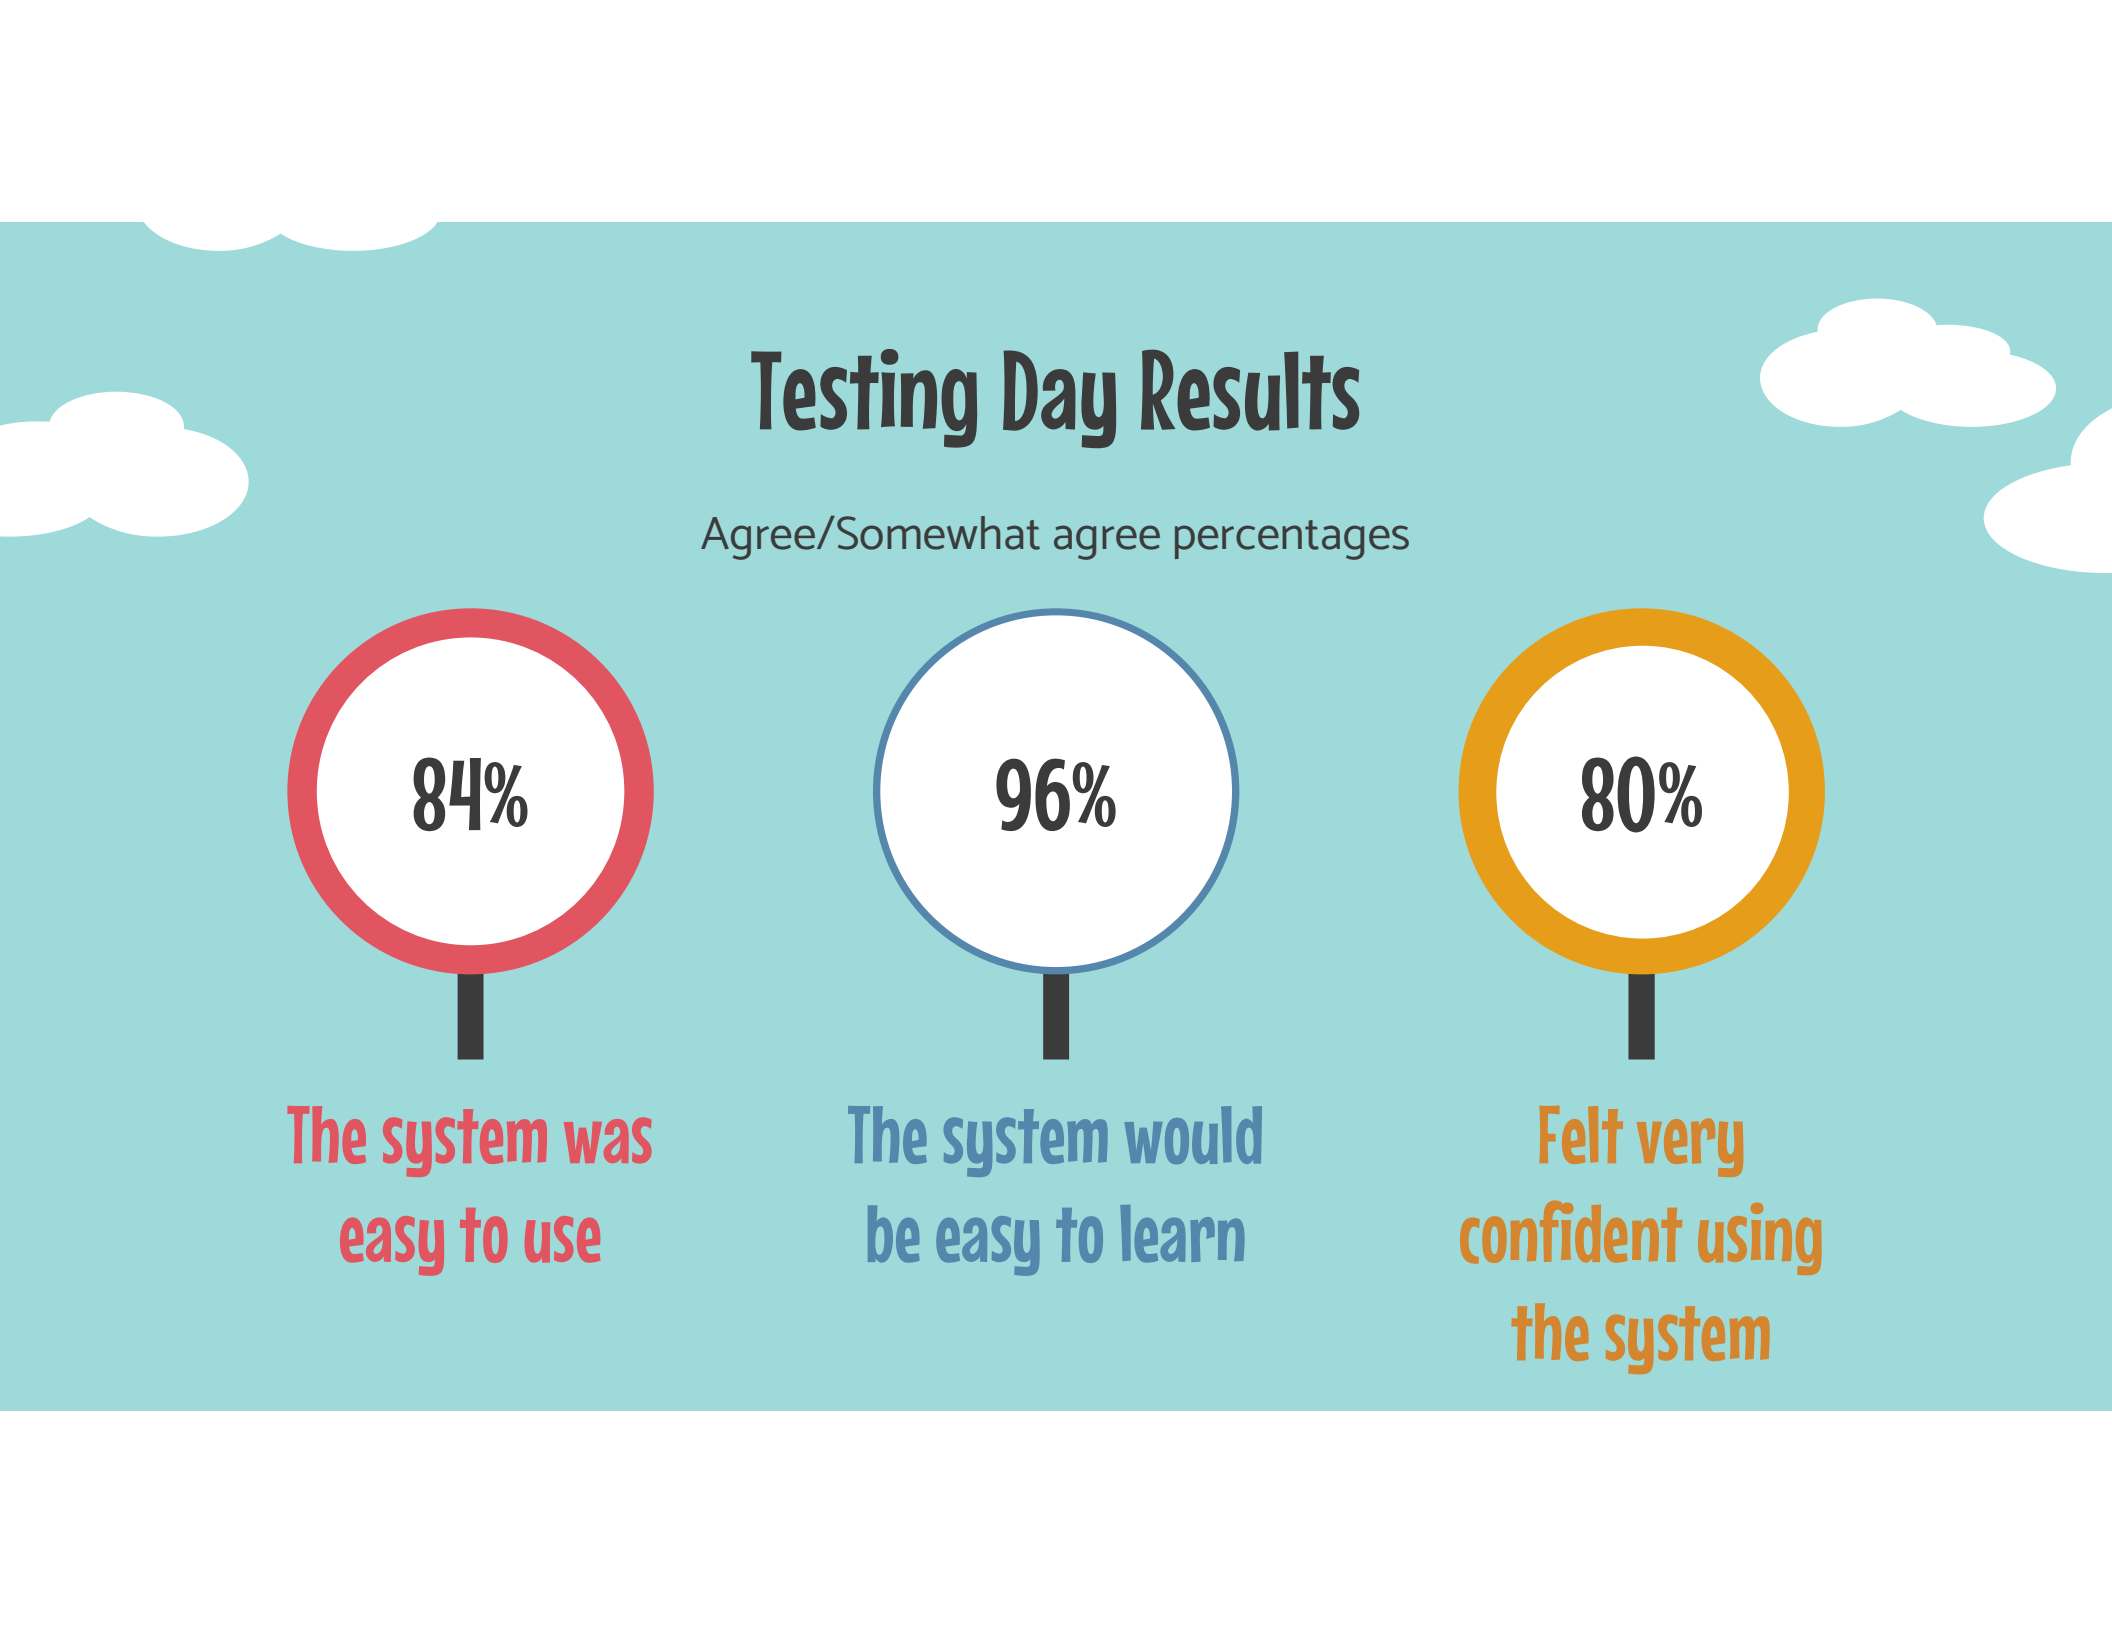

Product Maintenance

After our Final Release, will there still be contact with the team of devs?
What happens if something fails?

Testing Day Results

Agree/Somewhat agree percentages

84%

**The system was
easy to use**

96%

**The system would
be easy to learn**

80%

**Felt very
confident using
the system**

Key Testing Day Feedback Themes

**Increasing Input
Validation**

**More Consistent
Design across
pages**

**Additional
functionality in
Calendar page**

Next Steps

Printing Functionality

Add schedule printing
functionality to
calendar page

Backend Integration

Continue
development of
Django Backend

User Input Validation

Introduce validation
to every user input

Thank you!

Do you have any questions?
